

Local Government in British Columbia - Fourth Edition

Union of British Columbia Municipalities

Suite #60 – 10551 Shellbridge Way, Richmond, BC V6X 2W9

Phone: 604.270.8226 ext. 100; Fax: 604.270.9116; Email: rhayes@ubcm.ca

This is a book that belongs in the library of every British Columbia resident. A complete primer on all levels of local government, from cities and regional districts to towns, villages and school districts, this volume examines how each government works and its role in our society.

This fourth edition is completely revised and updated to reflect current legislation and local government practice while retaining its clear description of the decisions that affect the quality of life for everyone. This edition reflects all the major changes since the third edition was published in 1999.

Local Government in British Columbia raises some important questions, ie: how effectively does your community manage its water supply, road construction or fire department? It is an indispensable tool for public servants, community groups, or anyone interested in how the system works and how it could work better.

Topics include:

- introduction
- municipal governments
- other local governments
- protective services
- human services
- labour relations
- the province setting
- regional district governments
- service delivery
- engineering services
- regulatory and development functions
- finance
